You are encouraged to conduct your own due diligence and seek independent professional advice if necessary.

3. Review the property:

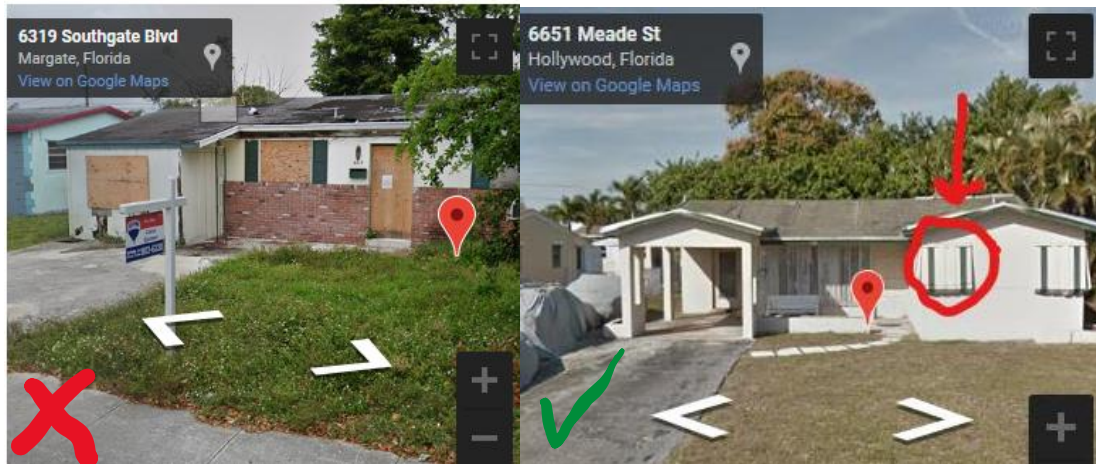

- a. **Google Review** - Review Street View – on the Map screen, make sure the map is set to “Google Only”. The property should have a red pin (confirm you are looking at the same property as in the Arial Map picture)

4. We are looking to bid on properties that are intact, without damage, and livable. If it's a huge property with a house on it, we want it.

Residential: We DO NOT WANT any house that looks like:

- *Boarded up* – Wood Plywood coverings. Hurricane Shutters are fine;

- *Complete Mess of a property.*

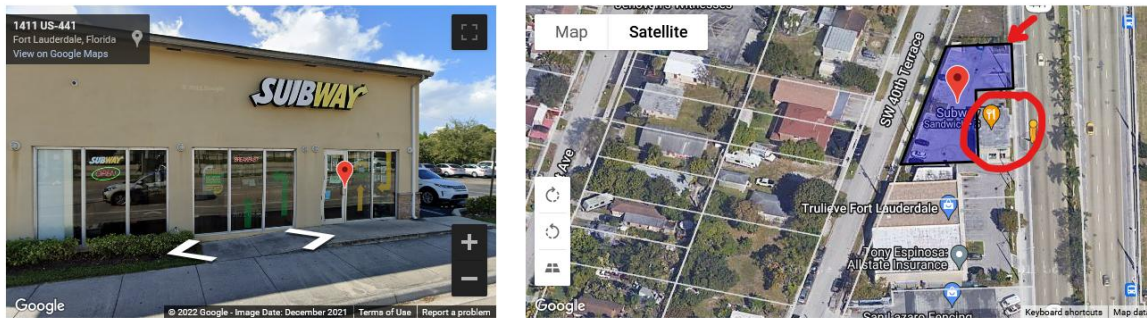

Commercial: We DO NOT WANT:

- Hospitals. Doctors' offices or Medical buildings are fine;
- Schools. Pre-schools are fine;
- Churches;
- Synagogues;
- Mosques;
- Gas stations; or
- Auto repair shops.

Commercial properties, retail stores, condominiums and apartments are fine.

Be Careful. The Street View is a building, but the GSI Aerial on right is only the Parking lot. **The GSI the determining factor.**

Vacant Residential or Vacant Commercial: We DO NOT WANT:

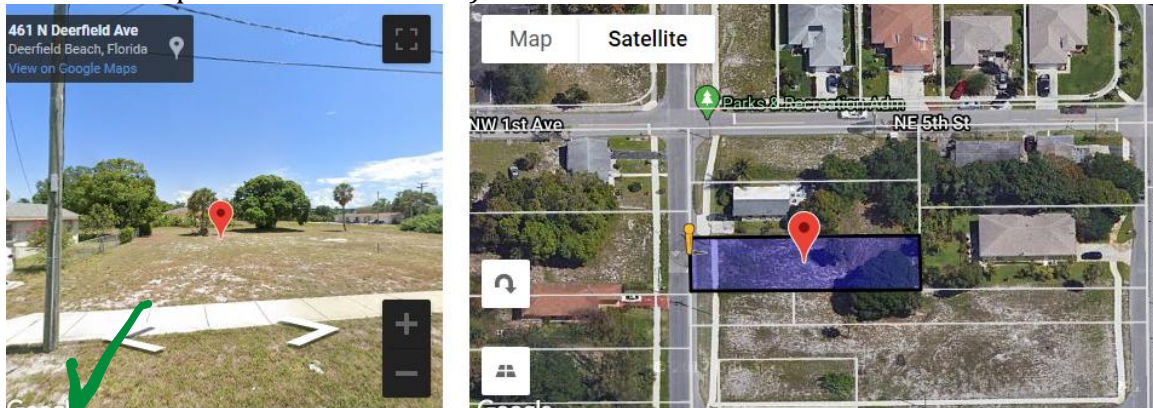

- long narrow properties
- Side lots
- Lots not facing a street.

We are looking for lots / land that is clearly big enough to build a house in the area (look on the aerial to see size compared to other homes).

This is good too. Clearly big enough to build a house in the area (look on the aerial to see size compared to other homes).

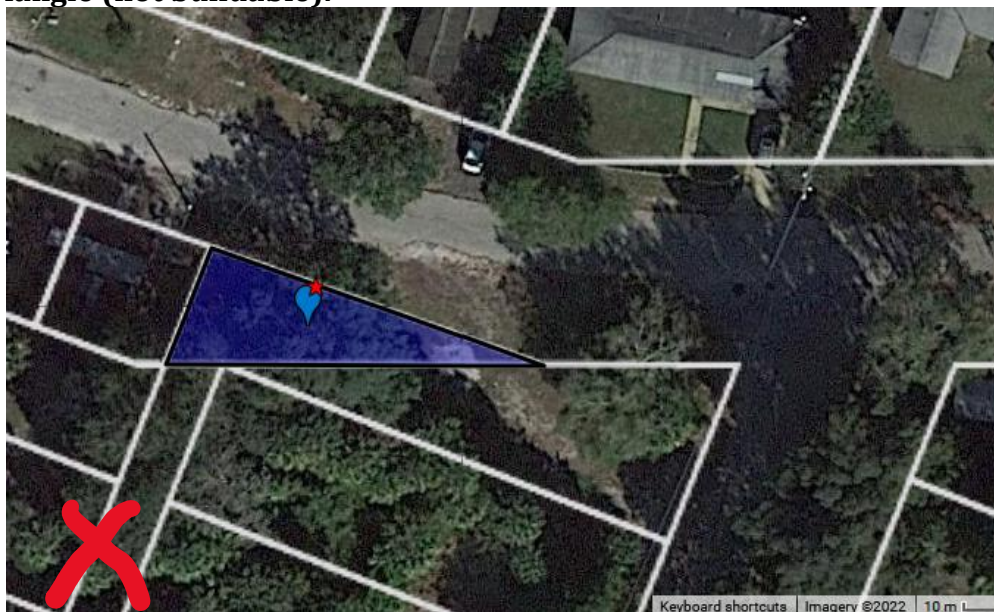

However, this is something **we do not want** – it is wooded.

Or parcels that are **Land Locked (no access roads)**

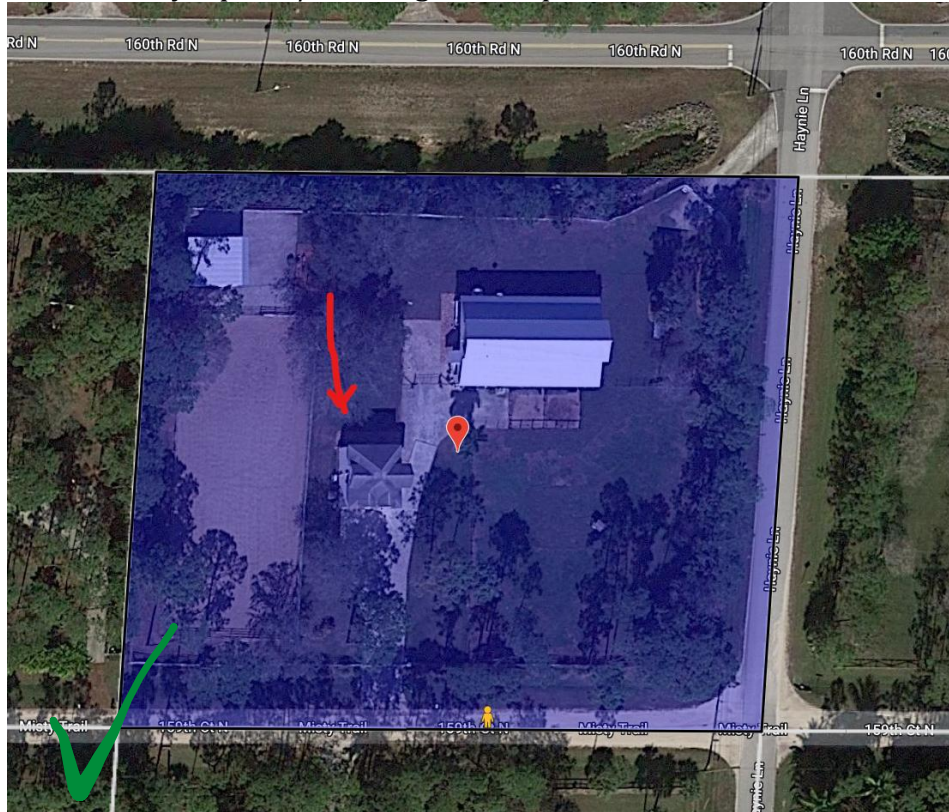

Or **Triangle (not buildable).**

Agriculture: We are looking for a Parcel:

- With a House
- On a road
- Pretty Square / Rectangular Shape

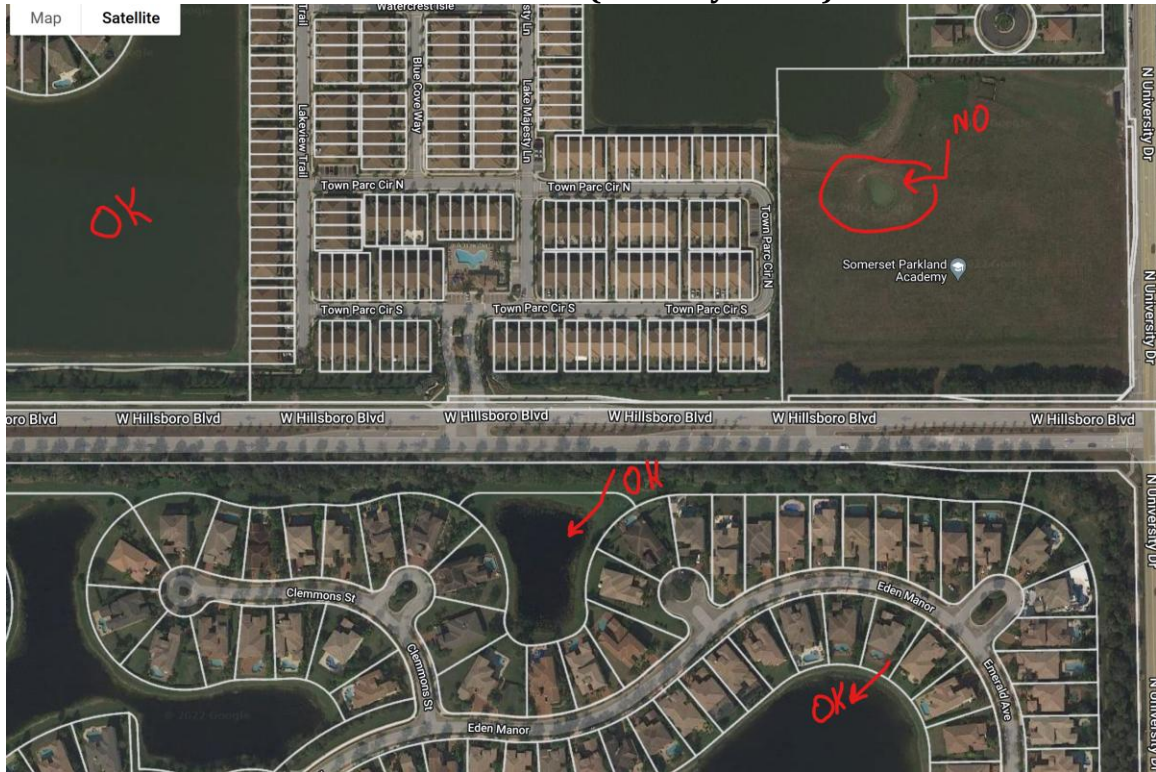

We DO NOT WANT:

- A Parcel with a water feature (small body of water – Pond) Pool is OK!

Lakes, canals, Bays, Ocean are all OK.
But water hole on land (its likely a leak) – NO.
